

Hot Hot Hats!

You will need:

- Tissue Paper (full-size sheets)
- Newspaper (full-size sheets)
- 1" Masking Tape
- Chair
- optional: Feathers, Glue, Sequins, Pom Poms

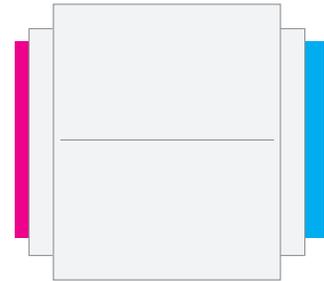

To begin this project, have each child choose 4 sheets of tissue paper, each a different color.

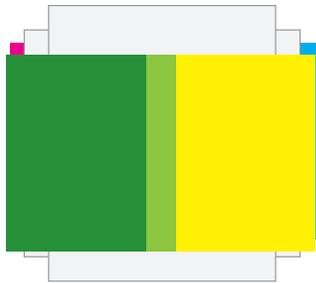

1. On a flat surface, lay down two pieces of tissue, overlapping them about 2 inches.

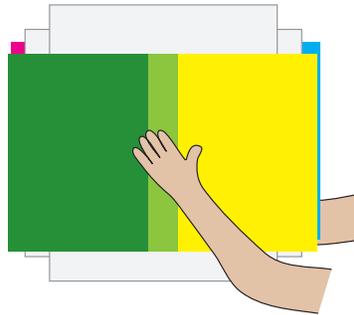

2. Add an opened-up sheet of newspaper.

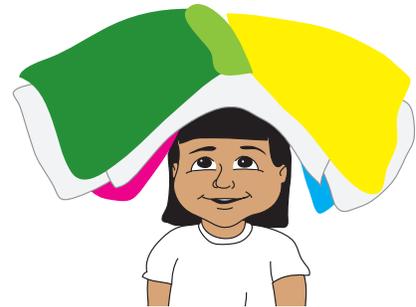

3. Add another sheet of newspaper, with the seam going the other way.

4. Top with two more sheets of overlapped tissue paper.

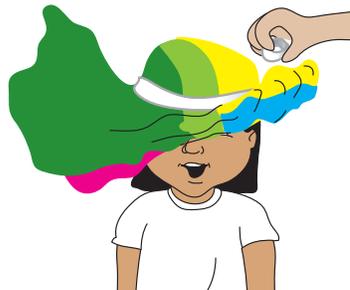

5. Carefully slide one hand under the middle of the stack. Place your other hand on top.

6. Seat child in a chair and gently place the stack on his or her head as shown.

7. Have an assistant pinch the seams down in front and back, away from the child's face. Tape around head at eyebrow level.

8. Roll the sides up loosely, and tape in place using tape curls.

Other designs:

Leave a brim and flatten it out for a baseball cap. Make a tube of tissue and newspaper and tape in place for a Seuss hat or stovepipe. Bunch up the last 6" of brim to add a "flower."

Decorate hats using:

Feathers & Pom Poms
Glitter Glue or Colored Glue
Sequins and Sparkles, etc.
